

Name of Activity _____

Indicate Learning Cycle or Application Activity _____

For each criterion listed, determine if criterion is met in the activity. Indicate by entering “yes” or “no” in the left-hand column.

Endorsement Criteria	Criterion Met? Yes/No
The articulated Content Learning Objective(s) can be achieved by successful completion of the activity.	
The articulated Process Skill Goal(s) can be achieved by successful completion of the activity or through appropriate facilitation.	
The Content Learning Objective(s) and Process Skill Goal(s) are achieved through a learning cycle and/or application approach. The activity guides students through an exploration to construct, deepen, refine, and/or integrate understanding of relevant disciplinary content.	
The quality of each model is sufficient to achieve the Content Learning Objective(s) and Process Skill Goal(s). Note that the model may not be embedded in the activities.	
With appropriate facilitation, it is reasonable to expect that self-managed student teams in the described context could successfully achieve Content Learning Objective(s) and Process Skill Goal(s).	

Level Assignment
(designate 1=High, 2=Acceptable, or 3=Unacceptable) _____

Feedback (for Level 2 or 3 assignments):
